

SUMMER READING

Help your child succeed in school!

Did you know that children who read over the summer do better in school?

Ways to help your child succeed at reading:

- ◇ Get a library card for your child. It's free!
- ◇ Register your child for our *Summer Reading Club*. It's free too!
- ◇ Encourage your child to read every day. When children read during the summer, they do better in school in the fall.
- ◇ Ask questions about the books your children are reading.
- ◇ Describing books in their own words helps them understand the stories better.
- ◇ Let your children choose books that they like. When children enjoy reading, they read more and their skills improve.
- ◇ Read to your child or listen to audio books together. Talking about the stories you share will help your child learn new words and ideas.
- ◇ Show you enjoy reading too, by reading on your own.
